

Prop 65 Changes

In an effort to comply with new California Prop 65 labeling requirements, BBB Industries is required to mark every box with a Prop 65 warning.

Many of our products could potentially contain material on the ever-expanding list of substances identified by the state of California to cause cancer or birth defects. As to avoid costly ramifications for our business and our customers this warning label has been added to all packaging.

Current Status:

- Requirement went into effect August 30, 2018
- Boxes currently have a sticker with the Prop 65 warning

What to Expect:

- Prop 65 will be printed onto all directly onto all packaging at the bottom of the box
- New packaging will be introduced as current inventory of packaging on hand is depleted
