BBB INDUSTRIES ACHIEVES IATF 16949 AUTOMOTIVE PRODUCTION CERTIFICATION

DAPHNE, ALABAMA: BBB Industries, a leading remanufacturer of automotive aftermarket parts, announced that the Management System for its steering plant has achieved IATF 16949 certification, the highest international quality standard for the automotive industry.

"IATF 16949 certification is a major milestone for our steering plant and BBB," said Jeff Bigler, Chief Operating Officer for BBB Industries. "It demonstrates our commitment to producing high quality products for our customers."

IATF 16949 is the new standard for an Automotive Quality Management system from the International Automotive Task Force (IATF) and replaces the prior ISO/TS 16949 standard. The goal of IATF 16949 is the development of a quality management system that provides for continual improvement, emphasizing defect prevention and reduction of variation and waste in the supply chain.

BBB Industries, LLC is an industry leader in the remanufacturing of starters, alternators, hydraulic and air disc brake calipers, power steering products and turbochargers for the OEM, personal and commercial vehicle aftermarket industries. BBB takes pride in producing the highest quality products in the industry with exacting standards that apply to customer service, the manufacturing process, product installation and to the performance on the vehicle. Automated test fixtures test every unit manufactured by BBB to meet or exceed OE specifications. Founded in 1987, BBB Industries, LLC is a private company headquartered in Daphne, Alabama.
